June 29
South Burlington

June 30
Richmond

- ❖ Screening Overview
- ❖ Why are we here tonight?
- ❖ What are the topics?
- ❖ How will this happen?
- ❖ Forum Schedule

VTrans

WHY are we here tonight...

- ❖ To talk about how screening the **long list of concepts** for improving transportation - received from public comments, meetings and interviews - is reduced to a **short list of alternatives** for detailed study.
- ❖ Listen to the public
- ❖ Get answers to the following questions:
 1. Does the approach to screening make sense?
 2. Are there any concepts missing from the long list?
 3. What are people's main concerns about particular concepts?
 4. Do people see specific transportation or environmental issues with any concepts?
 5. Were any concepts eliminated in initial screening that should stay in?

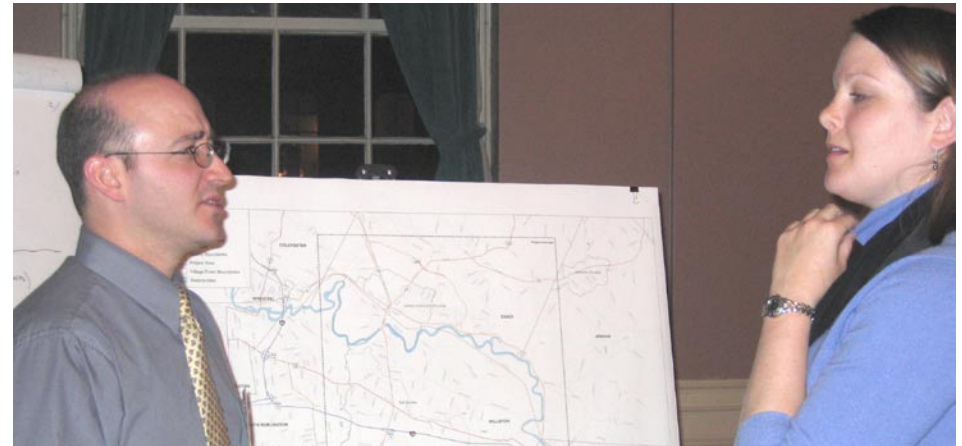

WHAT are the topics...

The topics are based on the long list of alternatives developed from public meetings, interviews and comments. They are:

- ❖ Public Transportation/Travel Demand Management
- ❖ Existing Roadway Improvements
- ❖ New Roadways

HOW will this happen...

After a short presentation on how screening is done, people will divide into three groups. Each group will meet and discuss one of the three topics for 20 minutes. At the end of the 20 minutes, the group will move to another topic until all three topics are covered. When the discussions are completed, everyone will come back together to hear a summary of each group's comments.

FORUM Schedule

6:30	Greetings	5 minutes
6:35	Presentation	15 minutes
6:50	First rotation (performance measures and one section of long list)	20 minutes plus circulation/ break time
